

## **Secondary Cities – Kharkiv Workshop**

### **Questions to Address for Final Workshop Presentations on Friday**

Participants will be grouped by their organizational affiliations for the Future Plans Worksheet task. These same groups will be the basis for afternoon presentations.

- Beketov Nat. Univ. of Urban Economics
- V.N. Karazin Kharkiv Nat. University
- Nat. Univ. of Radio Electronics
- Nat. Univ. of Civil Protection
- Nat. Aerospace University

You may make a digital presentation, but it is not required.

***Note:** We will focus on the University groups presenting and invite Spaero and the City Information Center to join/partner with university groups for future work if they are interested.*

#### **A. Workshop Overview Questions for all Groups to answer:**

- 1)** What data collection tool from this week (re-introduced or newly introduced) did you find most interesting or think will be most useful for you in the future?
- 2)** What data analysis tools/methods from this week did you find most interesting or think will be most useful for you in the future?
- 3)** What topics, tools, or tasks for geospatial data collection and analysis would you like to learn more about in the future?

#### **B. New Project Idea:**

Based on our discussion and worksheet for future work ideas, please present at least one idea from your group for a new data collection and analysis project for Kharkiv based on what you have learned from our workshop(s). You may use the worksheet as the basis for the content and structure for your presentation.

We encourage all participants to ask questions to other groups after their presentations, especially to spark any discussion of new project ideas and possible collaboration among individuals and organizations.
